

## **Microsoft Dynamics/Great Plains Consultants**

Are you searching for a career where you can apply your skills working for top clients on great projects and expand your knowledge by working alongside some of the best Technical and Functional consultants in the industry? Emerging Solutions is your answer!

Emerging Solutions is currently recruiting full-time mid and senior level Microsoft Dynamics/Great Plains consultants with extensive Microsoft Great Plains and Microsoft Dynamics experience for immediate hire in either our Chicago office or our Minneapolis office.

At Emerging Solutions you'll have the opportunity to earn a competitive salary using your skills and experience to deliver quality services and truly make a difference in our client's organizations.

Responsibilities include:

- 1) Provide day-to-day technical application support.
- 2) Install and Train on Dynamics GP (Great Plains) line of products on SQL platforms, including General Ledger, Account Payable, Account Receivable, Payroll, Inventory, Order Entry and Purchasing modules.
- 3) Working closely with clients in the configuration and migration to new systems.
- 4) Performing and managing integration of the solution, as well as assisting implementation teams with training issues.
- 5) Pre Sales technical support.
- 6) Demonstrates expertise in an industry or functional area and builds a strong reputation in the marketplace.

Position Requirements:

The ideal candidate will have experience with installation, implementation, and support of accounting/business solutions.

Additional requirements include:

- 1) Associates Degree required, Bachelor\*s degree preferred, in Accounting/Finance or IT.
- 2) Minimum of 1 years experience working with Dynamics GP installation and migration.
- 3) Basic understanding and hands-on experience working with MS SQL Server.
- 4) Proficiency in the basics of networking

**Travel required:** 25%
